

## Assignment (Day 2)

**Q) Create a function that takes two numbers as parameters and returns their sum.**

```
Sol : function addNumbers(a, b) {  
    return a + b;  
}  
  
// Example usage:  
var num1 = 5;  
var num2 = 3;  
var sum = addNumbers(num1, num2);  
console.log(sum);
```

**Output: 8**
